Governor Gavin Newsom Calls for Creation of a Master Plan for Aging

Executive Order N-14-19

Governor's [Executive Order](#) calls for the Secretary of the Health and Human Services (HHS) Agency to convene a cabinet-level Workgroup for Aging to advise the Secretary in developing and issuing the Master Plan.

The order also directs HHS to convene a Master Plan for Aging Stakeholder Advisory Committee, which will include a Research Subcommittee and a Long-Term Care Subcommittee with an interest in building an age-friendly California.

MPA Deliverables

- State Master Plan
- Local Blueprint
- Data Dashboard of State & Local Data
- Best Practice Toolkit for Local Planning (All by October 2020)
- Recommendations for Long-Term Supports & Services (March 2020)

Governor Newsom issued [Executive Order N-14-19](#) in June 2019 calling for the creation of a Master Plan for Aging (MPA) that can serve as a blueprint for state government, local government, private sector, and philanthropy to promote healthy aging and prepare for coming demographic changes. The executive order states:

- The California Health and Human Services Agency (CHHS) shall convene a **Cabinet Workgroup** for Aging to develop and issue the MPA by October 1, 2020. The MPA shall include key data indicators, with 10-year targets, to support the implementation of the MPA. The MPA shall include recommendations to better coordinate programs and services to serve older adults, families, and caregivers.
- A [Stakeholder Advisory Committee](#) and two subcommittees — [Research](#) and [Long-Term Services and Supports](#) (LTSS) — also shall be convened by CHHS. The LTSS Subcommittee shall submit a report to the Governor by March 2020.

Plan Framework

Vision: California for all across the life span

Mission: A person-centered, data-driven, ten-year California Master Plan for Aging by October 1, 2020, including a state plan, local blueprint, data dashboard, and best practice toolkit

Values:

- Choices — meaning access, quality, and autonomy
- Equity — addressing cumulative disparities due to age, disability, geography, income, race, ethnicity, immigration status, language, religion, sex, gender identity, sexual orientation, and family status
- Dignity and disruption of age-bias, able-ism, and discrimination
- Inclusion and accessibility for all older adults and people with disabilities
- Innovation and evidence-informed practice
- Partnerships among local, state, and federal governments, philanthropy, and private sectors

Goals for All Californians:

1. **Services & Supports.** We will live where we choose as we age and have the support we and our families need to do so.
2. **Livable Communities & Purpose.** We will live in and be engaged in communities that are age-friendly, dementia-friendly, and disability-friendly.
3. **Health & Well-Being.** We will live in communities and have access to services and care that optimize health and quality of life.
4. **Economic Security and Safety.** We will have economic security and be safe from abuse, neglect, exploitation, natural disasters and emergencies throughout our lives.
