Subject: Recommendations of the Legislative Committee

Hi, Committee members,

After conversations with colleagues about the Stakeholder's Advisory Committee regarding the recommendations of the Legislative Committee, I would like to add my own support on these concepts:

- Please include funding of Adult Day Programs (ADP's) in their set of recommendations related to Adult Day Programs, in addition to issues on reform of licensure and certification processes.
- ADP's should also be included in the Governors Cal-AIM funding package to improve viability of these important community resources.
- Please review our 2018 study and the subsequent subsidy amount approved by the Santa Clara County Board of Supervisors, with an eye toward wider adoption of this excellent model in other counties throughout the state.

Thanks for your continuing efforts on behalf of seniors across the state!

Rick Kaplowitz

[Volunteer member of the Santa Clara County Senior Care Commission]
