Subject: Adult Day Advisory Committee

As a former Health Facilities Examiner Nurse, and currently a retired nurse, I would like to input the Stakeholder Advisory Committees deliberation with regard to Adult Day Programs.

- I would like to recommend that the Stakeholder Advisory Committee include funding of Adult Day Programs (ADP's) in their set of recommendations related to Adult Day Programs. They are currently focused on reform of the licensing and certification processes of which I had personal knowledge.

● - I also encourage members of the Stakeholders Advisory Committee to review the 2018 study and the subsequent subsidy amount approved by the Santa Clara County Board of Supervisors. The success of the study as it relates to funding is an excellent model that could be applied to other counties throughout the state.

● - The ADP's identified in the study are 'activity' models that are not currently reimbursed by Medicare or MediCal.

● - ADP's should also be included in the Governors Cal-AIM funding package to improve viability of these important community resources.
