

Master Plan for Aging
Goal 2: Potential Measures

Objective	Indicator Type	Indicator	Data Source
2.1: California's neighborhoods will have the built environment to fully and meaningfully include older adults, people with disabilities, and people of all ages.	Person	Number of older adults and persons with disabilities housing cost burdened (30% of income) and extremely housing cost burdened (50% of income)	CDPH consolidated from HUD; CHAS (Consolidated Planning Comprehensive Housing Affordability Strategy); ACS (American Community Survey)
	Person	Rate of homelessness among older adults and people with disabilities.	
	System	Number of older adults and persons with disabilities in need of affordable housing but cannot access it	
	System	Number of new and rehabilitated affordable age-restricted housing units created	
	System	Number of new and rehabilitated affordable housing units created	
	System	Total number of shared housing units.	
	System	Rate of Skilled Nursing Facility Admissions from community-based settings	
	System	<i>Presence of a County (or Regional) one-call/one-click portal for the spectrum of accessible transportation services inclusive of public transit, human service, NEMT, trips and services (travel training).</i>	<i>Future collection path: Coordinated Human Service-Public Transit Plan (Caltrans) - requires addition to collected data</i>
	System	<i>Are accessible transportation trips from disparate agencies co-mingled with appropriate cost-allocation being applied?</i>	<i>Future collection path: Coordinated Human Service-Public Transit Plan (Caltrans) - requires addition to collected data</i>
	System	<i>Number of organizations representing protected classes or disadvantaged communities providing comments on local Capital Improvement Programs</i>	<i>Future collection path: CIP development process</i>
	System	Number of parks in a half-mile; overlaid with data supporting equity analysis	2014 Esri North America Parks Shapefile private data
	System	Availability of park linkages via pedestrian, bicycle, and public transit/ transportation that are well-maintained and accessible; overlaid with data supporting equity analysis	Unknown
	System	Parks with age-friendly design features; overlaid with data supporting equity analysis	<i>Future path: CA Park Access Tool; requires adding reporting data on age-friendly design and demographic overlays</i>
2.2: Californians will age with lifelong opportunities for social and civic engagement, volunteering, learning, and leadership.	Person	Number of older adults volunteering	
	Person	Number of older adults in the workforce	
	Person	Self-reported civic engagement	CHIS General Survey
	Person	Voting rates for older adults by age, race, ethnicity	CHIS General Survey
	System	Older adult access to affordable broadband/high-speed internet	
	System	Number of libraries offering intergenerational community programming	
	System	Numbers of community centers and senior centers offering programming reflective of community (agespan, diverse culturally)
