Subject: VITAL SUPPORT PEOPLE AND PETS

I have been disabled since 2003.

Prior to that I, I had always been a kitty guardian during my 40+ working years. They are such an important part of my life. Both give and take.

Animals are a gift from our creator.

Don't get me wrong, with severe arthritis, emptying and scrubbing cat boxes doesn't bring joy. However, it keeps me busy and makes my boys happy. Anytime you can help others is always a good thing.

Since 2003, I have been enjoying my two litter mates. I totally attribute their seventeen years to PAWS. Medical appointments yearly, monthly food bank deliveries with pet food and supplies is a lifesaver.

I am so very lucky to have PAWS. And, so are the many disabled and low income San Francisco residents who are able to clients. They have been providing this care for decades!

Sincerely,

Sarah Clarke
