Dear Friend,

I commend PAWS in San Francisco for helping the aging community with the care and feeding of our pets. From grants assisting in Vet care, to a food bank with delivery service, to free clinics for our pets' problems and needs, PAWS provides such a welcome financial assist when our pets need it. This frees our very limited money to be used for OUR food, rent and medicines. Our pets are so precious to us, giving such comfort and love to us who are physically challenged and alone.

I ask for hundreds of seniors who have benefited from PAWS assistance in the past, that you consider helping PAWS in this necessary and noble endeavor in support of seniors.

Timothy Gilmore
