California Master Plan For Aging

I am writing to your agency for advocacy of a program [Pets Are Wonderful Support \(PAWS\)](#) supporting seniors and people with AIDS by keeping them with their Pets through sponsoring pet care, food, and related care services. PAWS has been supporting me for several years by providing the funding for the care of my pets. I find myself to be at peace knowing that PAWS is there to lend a hand and to take care of my Cat (Mr Sparky).

I urge you to consider this program in your recommendations for promoting quality of life programs affecting seniors and disabled Californians

Thank you  
Zack Shahin, P.E.  
San Francisco
